

Filip Nordqvist

What do I want to learn or understand better?

I want to become better at handling the different hooks that are available in React. I also want to become better at writing clean and effective Javascript.

How can I help someone else, or the entire team, to learn something new?

I can share my knowledge of the frameworks that we use and my knowledge of programming in general.

What is my contribution towards the team's use of Scrum?

I attended all meetings, created several tasks, estimated tasks with scrum poker and I was active on Trello.

What is my contribution towards the team's deliveries?

I have completed all my tasks. I have also been working on several issues and bugs that the application currently has. Most of my time was spent improving code and resolving bugs.
