

Simon Andersson

What do I want to learn or understand better?

I have learned more about React but still need to understand that framework better.

How can I help someone else, or the entire team, to learn something new?

When someone has a problem with the project they ask questions in our communication channel Discord.

What is my contribution towards the team's use of Scrum?

I have used the Scrum board we have in Trello to keep track of our user stories and the tasks we are doing.

What is my contribution towards the team's deliveries?

We had a meeting with a representative from the club we are working with. I have also completed some tasks.
