Simon Andersson

What do I want to learn or understand better?

I want to understand Javascript libraries for React better. We currently use PrimeReact for components but there are a lot more options to choose from.

How can I help someone else, or the entire team, to learn something new?

If someone has a bug they share their screen on discord and I can help them fix the problem. I can also help them learn something new by linking tutorials they can follow.

What is my contribution towards the team's use of Scrum?

I have followed Scrum by having meetings with the group and done tasks from the Trello board

What is my contribution towards the team's deliveries?

I have worked on tasks from the Trello board, this week I fixed a lot of bugs with selecting the correct time when booking.
