Filip Nordqvist

<u>What do I want to learn or understand better?</u>

Same as last week. Learn how to work with Scrum and a full stack project.

<u>How can I help someone else, or the entire team, to learn something new?</u>

By staying active in the project I can hopefully help people if they encounter a problem since I might have also had that problem earlier.

<u>What is my contribution towards the team's use of Scrum?</u>

Same as last week. I try to understand Scrum as much as possible so I can be an active project member.

<u>What is my contribution towards the team's deliveries?</u>

Among many things I have been active in the discussion regarding our mock-up and I participated in the second workshop.
